Databases: MySQL, SQL Server, MongoDB, Firestore, Neo4j

Cloud Technologies: Amazon Web Services, Google Cloud Platform

Others: Data structures, JSON, Git, CI/CD, Apache Spark, Docker, MVC, Postman, JIRA, Scrum, Agile, Telerik, XML, XSLT

WORK EXPERIENCE

Software Developer

Oct 2022 – Present

Charm Diamond Centres (CJ Pvt. Ltd.) | Halifax, NS, Canada

- Developed a dashboard for business analytics, revamped from its older version, allowing more visibility, interaction, control, and 100% data accuracy and consistency.
- Contributed in the establishment of a centralized data lake for storing and managing essential data, ensuring data reliability.
- Streamlined the automation of the manual monthly process of downloading data from the Stripe dashboard, using Stripe API, achieving significant optimization of data analysis.
- Developed XML to HTML transformations using XSLT templates to generate PDF documents, improving customer service.
- Led backend development for the store dashboard and guided frontend technology choices to enhance employee productivity, leading to a 20% increase in operational efficiency.
- Facilitated scheduled tasks for business process automation, optimizing application data storage, and automated email handling achieving 100% efficiency.
- Established an SKU image repository to streamline image management, resulting in 99% availability.
- Designed and implemented a Windows service for customer communication, resulting in a 40% improvement in response time through efficient texting and email notifications.
- Diagnosed and resolved image storage challenges by implementing an image expiration identification system, resulting in a more efficient storage maintenance process and overall resource utilization and reduced on-premise storage usage by over 50%.

Junior Programmer Intern

May 2022 – Aug 2022

Charm Diamond Centres (CJ Pvt. Ltd.) | Halifax, NS, Canada

- Developed a web application for Repair Tracking replacing the current system, and achieved 100% adaptability and consistency.
- Enhanced user experience with a responsive and user-friendly interface using Bootstrap changing the overall look and feel of the interface.

Software Developer Intern

July 2020 – Mar 2021

E-Core Agile Security Pvt. Ltd. | Ahmedabad, Gujarat, India

- Developed a web application for astrology services for a client, providing 100% results match and a seamless flow of each module.
- Utilized third-party APIs using REST improving the results of the matchmaking module.
