WORK EXPERIENCE

Software Developer   Oct 2022 – Present
Charm Diamond Centres (CJ Pvt. Ltd.) | Halifax, NS, Canada

- Developed a Dashboard for business analytics, revamped from its older version, allowing more visibility, interaction, control, and 100% data accuracy and consistency.
- Established a centralized data lake for storing and managing essential data, ensuring data reliability.
- Implemented role-based authentication and user management, allowing fine-grained control over access to reports on the Dashboard.
- Automated and scheduled the monthly process of downloading data from the Stripe dashboard eventually aiding in the analysis, with the help of Stripe API, achieving significant time savings.
- Troubleshooted the bugs and supported the continuous development and testing for the pre-existent applications leveraging a good understanding of the business domain.
- Created a static website using GoDaddy for a service-based business, achieving an 86% increase in the business presence.
- Created XML to HTML transformations using XSLT templates, to generate PDF documents, improving customer service.
- Technologies: HTML, CSS, JavaScript, jQuery, Ajax, Bootstrap, .NET, C#, SQL Server, REST API.

Junior Programmer Intern   May 2022 – Aug 2022
Charm Diamond Centres (CJ Pvt. Ltd.) | Halifax, NS, Canada

- Developed a web application for Repair Tracking replacing the current system, achieved 100% adaptability and consistency.
- Enhanced user experience with a responsive and user-friendly interface using Bootstrap changing the overall look and feel of the interface.
- Technologies: HTML, CSS, JavaScript, jQuery, Ajax, Bootstrap, .NET, C#, SQL Server, REST API.

Software Developer Intern   July 2020 – Mar 2021
E-Core Agile Security Pvt. Ltd. | Ahmedabad, Gujarat, India

- Created a web application for astrology services for a client, providing 100% results match and a seamless flow of each module.
- Utilized third-party APIs using REST improving the results of match making module.
- Technologies: HTML, CSS, JavaScript, jQuery, Ajax, Bootstrap, PHP, Laravel, MySQL, REST API.
